

Five-star style

Resort-style living in the comfort of your home

BELOW A dry bar and beverage centre has been placed at the entertaining end of the kitchen to avoid interruption to the kitchen work flow.

THIS modern, European-flavoured kitchen boasts style and sophistication while embracing all aspects of function and storage required for an active family of four.

Rather than simply designing a space that was purely practical, Interiors by Darren James successfully fashioned a kitchen that valued both form and function. One of the main requests from the owners was to include luxurious finishes that differed from the standard two-pack kitchen. A selection of high-end materials was incorporated in the design to contribute to the kitchen's outstanding aesthetic quality.

Gorgeous marble benchtops give the impression of elegance while adding character and a sense of light to the room. Enhancing the design's visual appeal is the textured veneer cabinetry, which adds another dimension to the space. The natural feel of the veneer complements the honed travertine flooring while also creating an eye-catching contrast to the aluminium glass frame doors and custom stainless-

steel benchtops.

The absence of handles emphasises the streamlined and minimalistic appeal of the kitchen, as does the incorporation of a mirrored splashback, which also gives the appearance of extra space.

In keeping with the seamless minimalistic design, the kitchen incorporates a range of integrated appliances including a range of cutting-edge Miele stainless-steel appliances.

Boasting a stunning outlook over the magnificent canals and luxurious finishes to boot, Interiors by Darren James has designed a kitchen that's well and truly deserving of the impressive, three-story Sovereign Island home where it resides.

With an open-plan design that flows out easily to the adjoining living area and outside entertaining area, the kitchen is both stylish and practical with loads of architectural appeal. Definitely a five-star experience!
