

THE GREAT OUTDOORS

"The owners love entertaining, especially outdoors. They wanted a space that encapsulates the beauty of the surrounding natural environment, but also performs as a kitchen for serious entertainers. An organic palette of timber and stone makes an impact on the large space, integrating with the rest of the home. We chose a bronzed mirror splashback to reflect the bush landscape and enhance textural interest. Premium appliances are carefully placed to balance the kitchen: the quadrant of two Miele pyro ovens, a steam oven and a coffee machine at one end, two integrated Liebherr fridges at the other. The kitchen flows seamlessly into the alfresco area overlooking the pool and cabana, which houses a fully equipped entertainer's outdoor kitchen. Here, every component marries exceptional resilience with striking design, from weatherproof surfaces to design-leading appliances. The glass splashback allows the kitchen to blend with nature, providing uninterrupted enjoyment of the scenery."
